Bill,

Any updates/changes for the boat/driver requirements you sent before?

Thanks,

Gary Miller

Gary – Is the dive team going to need a boat and driver for this?

David,

This is for the EPA dive team visual/side-scan sonar inspection, and the testing of pore-water sampler placement. Will the week of Dec 7-11 work for your folks & Benchmark? They expect it will take two days.

Thanks,

Gary Miller

Subject: Final proposed dates for Dive Ops

Gary,

We have reached a final proposal for conducting our first round of dive ops at San Jacinto. If you, your team and the RP are available for two days during the week of Dec 7-11, we can fully commit to completing the operation this week.

We will plan to operate on site for two days. Mobilizing and demobilizing the day before and day after.

Please let us know if this time period will work for you all.

Respectfully,

Brandi Todd
